The Cape Collection is an alfresco range, equally suitable for indoor and outdoor use. Its minimalist style pairs well with natural textures, such as wood and rattan, and adds a touch of sophistication when combined.

The range is made from hand crafted glass fibre reinforced concrete, which is painted with a water based (acrylic) paint and then coated in a durable water-resistant coating (similar to the sealant used on concrete flooring).

It is resistant to stains from common food items, such as red wine, but care should of course be taken and spills wiped soonest. Overall product care is easy, with the recommendation that the product be cleaned with a mild soap and water regularly, and then waxed every 4-6 months to ensure longevity.

The product is strong and sturdy, and consideration should therefore be given to the weight of the item when planning access and location within the home.
